WINE DIRECT

Temperature Controlled Shipping: Napa Valley

To protect your wine from extreme temperatures without the expense of air shipping, you can leverage our refrigerated linehaul services to facilitate shipments to the Midwest, East Coast and Southern States.

New this year, you pick your preferred common carrier (UPS or FedEx) and we map the route based on the destination state. Your shipments will depart our temperature-controlled warehouses, travel middle mile on our refrigerated temperature-controlled trucks and arrive to our destination hubs for ice insertion (if requested) before being passed to the carrier for shorter times in transit.

Weight-based fulfillment rates are calculated using Napa Valley as the origin facility.

- A $4.00 surcharge per UPS or FedEx package applies.

NOTE: Please use carrier code **CST8 for UPS** and **CST9 for FedEx.** Orders without these codes will NOT be loaded onto the temperature-controlled truck.

Bi-Coastal Clients! You now can take advantage of temp control with your warehouse split. Submit temp control orders and we'll pick and pack from your west coast warehouse and GLW saving you time and costs with two points of origin.

Route to Ohio and Florida

- Weekly service departing on Fridays:
- UPS & FedEx Ohio: DC, AR, CT, DC, DE, IL, IN, IA, KS, KY, ME, MD, MA, MI, MN, MI, MO, NE, NH, NJ, NY, NC, ND, OH, PA, RI, SC, SD, TN, VT, VA, WV, WI
- UPS & FedEx Florida: FL, GA

Route to Arizona and Texas

- Weekly service departing on Fridays:
- UPS & FedEx Arizona: AZ, NM
- UPS & FedEx Texas: AL, MS, LA & TX

Temperature-controlled shipping is offered as a volume-based service. Extended delivery times are possible. To ensure service continuity, we may discuss moving shipments to 2-day service as needed. Any adjustment to the service level will be billed according to the service applied.
